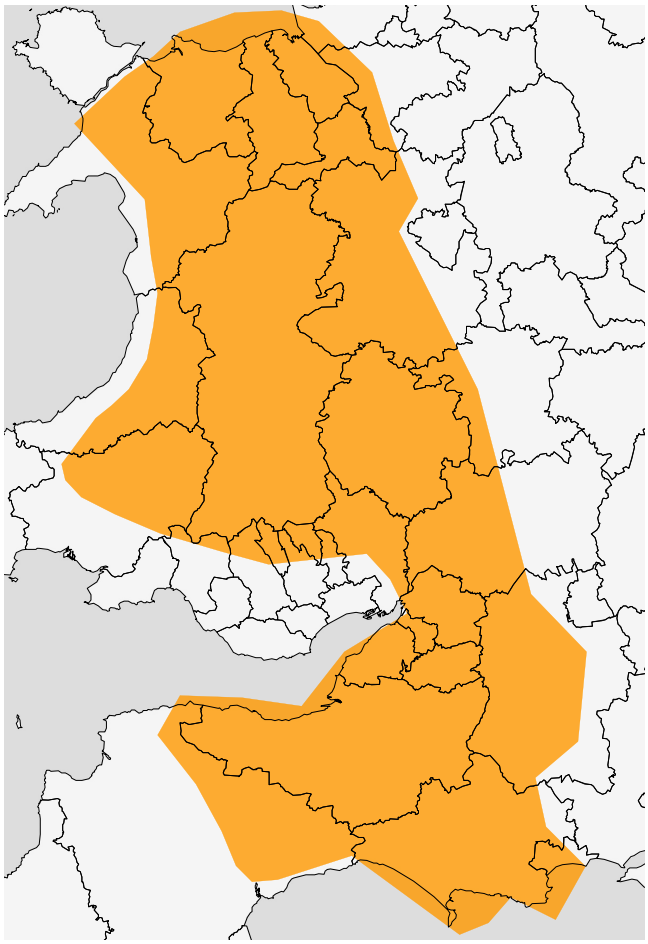
Amber warning
Rain

Between
12:00 Sat 3 Oct 2020 and
06:00 Sun 4 Oct 2020



Heavy rain is expected to bring some flooding and transport disruption.

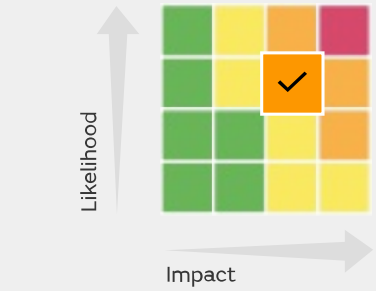
What to expect

- Homes and businesses are likely to be flooded, causing damage to some buildings
- Fast flowing or deep floodwater is likely, causing danger to life
- Delays and some cancellations to train and bus services are likely
- Spray and flooding probably leading to difficult driving conditions and some road closures
- A good chance some communities cut off by flooded roads

Further details

A band of rain will become slow moving and heavy across Wales, the West Midlands and into southwest England. This is likely to bring flooding and some disruption to travel.

Many places will see 25-50 mm of rainfall, with totals of 70-90 mm expected over higher ground of Wales and southwest England as well as the potential for over 120 mm in some of the most exposed high ground of Snowdonia and Exmoor. The unusual wind direction associated with the rainfall will mean that the peak rainfall totals are likely to occur in some areas that are usually well sheltered and drier during unsettled spells of weather.



Medium likelihood of medium impacts

Issued at 11:02 Fri 2 Oct, 2020
